TYPICAL USE

Side road closures, roadworks, maintenance works, utility works, civil works, road resurfacing, bridge works, event traffic management, emergency works, flood response, temporary detours, access restriction arrangements and other temporary traffic management layouts where advance warning of a side road closure is specified.

DEPLOYMENT

Side road closure advance warning panel used to warn road users in advance of an intersection where the side road is closed to traffic, where this warning is specified as part of a broader temporary traffic management, road closure, side road closure, detour, event or works arrangement. Selection, placement, panel pairing, visibility, frame arrangement and use remain subject to the applicable TMP, TGS, side road closure arrangement, road closure arrangement, detour arrangement, traffic control arrangement, site arrangement, project requirements, site conditions and relevant authority requirements.
