TYPICAL USE

Temporary truck crossings, site entrances, haul routes, construction access points, quarry access points, earthworks sites, civil construction projects, major infrastructure works, utility works, roadside maintenance, heavy vehicle movements, plant access, material delivery areas and other temporary traffic management layouts where truck activity creates a hazard.

DEPLOYMENT

Truck movement warning panel used to provide advance warning where trucks cross, enter or leave the road from an adjoining property or worksite access point and where truck activity is specified as part of the temporary traffic management arrangement. Selection, placement, panel pairing, visibility, frame arrangement, display timing, covering/removal and use remain subject to the applicable TMP, TGS, truck crossing arrangement, site access arrangement, haul route arrangement, traffic control arrangement, site arrangement, project requirements, site conditions and relevant authority requirements.
