TYPICAL USE

Temporary roadworks, changed traffic layouts, detours, lane shifts, lane closures, intersection changes, traffic switches, temporary alignments, utility works, resurfacing works, event traffic management, civil works, access changes and temporary traffic control setups where specified.

DEPLOYMENT

Changed conditions warning / information panel used to advise road users that the normal road layout, traffic flow, lane access, intersection operation, route path or driving environment has changed as part of a broader temporary traffic management arrangement. Selection, placement, pairing, visibility, frame arrangement and use remain subject to the applicable TMP, TGS, site arrangement, project requirements, site conditions and relevant authority requirements.
