TYPICAL USE

Road condition warning arrangements, water over road conditions, heavy rain events, localised surface water, drainage overflow, low-lying road sections, council maintenance works, emergency response works, road maintenance, civil works and temporary traffic management layouts where water is present over a trafficable road surface.

DEPLOYMENT

Advance warning sign panel used in temporary traffic management setups to indicate water over the road where the road remains trafficable with care and where this sign is specified as part of the traffic control arrangement. Selection, placement, display timing and use should be confirmed against the applicable TMP, TGS, project requirements, site conditions and relevant authority requirements.
