TYPICAL USE

Roadworks, profiling, asphalt milling, resurfacing works, pavement repairs, excavation reinstatement, utility trenching, temporary gravel sections, unsealed bypasses, road deviations, pothole repairs, bridge approaches, changed traffic conditions and other temporary traffic management layouts where a rough surface warning message is specified.

DEPLOYMENT

Road surface condition warning panel used to warn road users of a rough, uneven, altered or temporary road surface condition ahead where this warning is specified as part of a broader temporary traffic management arrangement. Selection, placement, panel pairing, visibility, frame arrangement and use remain subject to the applicable TMP, TGS, road surface hazard arrangement, traffic control arrangement, site arrangement, project requirements, site conditions and relevant authority requirements.
